sleep-trial-2024.pdf, sleep-trial-2025.pdf

  

Do these two trials agree on the effect? 

 T
Partly. The 2024 trial reports a 32% drop in time to fall asleep. ¹ The 2025 trial found 18% in an older group. ² Both flag small samples as a limitation. ³

SLEEP-TRIAL-2025.PDF 119 | 91% match
...sleep onset latency fell by 18% in participants aged 60 and over, a smaller effect than earlier reports.
